

Please support

Please support our community project with:

- **Colorful sailing**
- **School sailing**
- **Neighbourhood sailing**

Henk van Gent, Olympic Sailor and teacher physical education is the driving force in these projects.

Sailing is used as a tool to reach community goals:

- **participation**
- **social cohesion**
- **integration**

Sailing has proved to be a good 'tool' for this.

Not all participants are in the financial position to go sailing.

That's why we do fundraising.

To make it possible for schools, school sailors and neighbourhood sailors to join our project.

***Please join us.
The children, the schools and
Community Sailing Rotterdam
will be very grateful!***

Colorful Sailing **Community Sailing Rotterdam**
